Purpose

This paper describes HSCIC Official Statistics publications planned for a three month forward look period, media coverage for press released Official Statistics publications and web activity for publications released in March 2014.

Background to HSCIC Official Statistics

At 1 January 2014, the HSCIC is responsible for 111 series of Official Statistics of which 38 are designated as National Statistics, which means that the UK Statistics Authority (UKSA) recognises them as being compliant with the Code of Practice for Official Statistics.

“Experimental statistics” are new Official Statistics that are under-going evaluation. A key part of this evaluation is user engagement whereby the HSCIC invites readers to comment on the publications, which helps to inform future releases.

Official Statistics are expected to evolve and improve over time, to meet the changing needs of our users, to improve their quality and utility and to respond to changes in the administrative and management data sources.

Most HSCIC Official Statistics are published annually or more frequently. Generally, each edition is similar in content to previous versions but any substantial changes are noted below (note: no such changes are yet planned).

National Statistics are identified below with [NS]

Forthcoming Publications Official and National Statistics

Dates for forthcoming publications are confirmed approximately six to eight weeks ahead of publication; until this point, the HSCIC announces only the planned month of publication.

June 2014

New releases

17 June 2014 Focus on - Older People

Annual

None presently scheduled

Quarterly

August 2014

None presently scheduled

User and Media Activity – March 2014 Publications

Unique page views are the number of times the publication page was viewed during the two-week period following its release. Note that one user could generate more than one unique visit.

Media Units are the total articles or other media coverage for example print, online articles or broadcasts for the publication. The totals in the table include all media units to 8 April 2014.

Bars in the table below indicate the scale of interest generated by each publication.

Publication	Date	Unique page views	Media Units
