

# Programme Definitions

Portfolio Code	Name	Description
P0004	CP-IS	The Child Protection - Information Sharing project will provide child protection information to unscheduled (emergency and urgent care) services in the NHS on the statutory position of children subject to a Child Protection Plan or Statutory Order. It is intended that the information will be fed from Children's Social Care systems and a solution will be developed that will enable unscheduled care setting systems within the NHS to view this information.
P0070	CQRS	The Calculating Quality Reporting Service (CQRS) is replacing the Quality Management and Analysis System (QMAS), the system currently used to calculate payments to GPs under the Quality & Outcomes Framework (QOF).
P0010	DMS Connectivity	Support Defence Medical Services to deliver the fully operating capability of their Personnel Care Record System Programme (DMICP). This includes integrating with the services and systems of the NHS, provision of relevant SME, skills and programme resource. In this context NHS systems include patient registration, staff authentication and patient choice together with activity related management information.
P0012	ETP	The Electronic Transmission of Prescriptions (ETP) programme is delivering the Electronic Prescription Service (EPS) to GP practices, community pharmacies and dispensing appliance contractors across England. EPS enables prescribers (such as a GP or practice nurse) to send prescriptions electronically to a dispenser (such as a pharmacy) of the patient's choice, and then onward transmission to the NHS Prescription Services to support reimbursement. This makes the prescribing and dispensing process more efficient and convenient for patients and staff.
P0014	GP2GP	To deliver the national implementation and roll-out of a computerised system to manage the transfer of patient records between GP practices when patients change their GP, covering electronic records transfers between GP practices.
P0017	GPSOC	GP Systems of Choice is a scheme through which the NHS will fund the provision of GP clinical IT systems in England.
P0208	GPSOC Replacement	Replacement GP Systems of Choice is a scheme through which the NHS will seek to develop improved functionality and fund the provision of GP clinical IT systems in England.
P0207	HJIS	HJIS (formerly known as Offender Health Second Generation Services) aims to identify and assess options for maintaining the existing clinical IT service capability beyond the current supplier contract end date (Jun 2016) and meet the future information needs of healthcare across all approved places of detention in England.
P0026	HSCDS (Choices Service)	NHS Choices ( <a href="http://www.nhs.uk">www.nhs.uk</a> ) acts as the digital gateway and public front door to the NHS, transforming the delivery of health and social care to one that is patient-centred, personalised and accessible to all.
P0298	NHS Choices Online Channel	This project is to develop the business case for future NHS Choices service
P0024	N3	N3 is the National Network for the NHS. It provides a robust and reliable broadband network, supporting IT infrastructure, world-class networking services and sufficient, secure connectivity and capacity to meet current and future NHS IT needs. N3 provides connectivity to all NHS organisations in England, as well as those non-NHS sites providing NHS care, ensuring a reliable service at every site where NHS services are delivered or managed.
P0238	NHS e-RS inc. CAB	The NHS e-Referral Service Programme will deliver an open, modern, electronic referral service, improving patient outcomes and delivering paperless referrals by 2015.
P0030	NHSmail	NHSmail provides the NHS with a secure email and calendar service hosting close to 950,000 registered users, with 660,000 of those regularly accessing the service. The existing contract (with Vodafone) is due to expire on 30th June 2014.
P0196	NHSmail2	The aim of the NHSmail2 project is to replace the existing NHSmail solution the current expectation is that the existing NHSmail contract will be extended to June 14, so a replacement will need to have been identified by this date
P0037	OHIT	To deploy a clinical system to all prisons in the South and London so that they can link up with existing deployment plans in NME to form a national network. The system chosen TPP SystemOne, provides a single patient record which is allowing patients information to be transferred when they are moved around the prison estate. Thus providing continuity of care and improving health care for prisoners as well as working environment for staff.
P0190	PSNH	Develop and deliver options appraisals with supporting impact assessments, leading to an appropriate business case for the procurement of a wide area network to meet the information needs of health, public health and social care through utilising in full or in part the Public Sector Network (PSN) frameworks, models and approaches. The PSNH project will deliver a Public Services Network for Health, which will be aligned and accredited to PSN standards; as such we have named the future health and social care network PSNH.
P0051	SCR	Delivery of the SCR which supports urgent and emergency care settings, providing information to authorised health care professionals to support care where no information is currently held about a patient, for example in out-of-hours settings, emergency departments, treating temporary residents and emergency admissions to secondary care.

Portfolio Code	Name	Description
P0049	Spine Extension	To provide the national Spine infrastructure to support national systems such as Demographics, EPS, PSIS. The Spine contract provides key components of the overall architecture for the NHS Care Record Service (CRS)
P0050	Spine 2	The provision of the existing Spine Services to be re-procured using the new Government ICT strategy framework, using internal and 3rd party resources.
P0183	South Community Programme	To procure clinical solutions for the Southern Community and Child Health Trusts which do not currently have these solutions under the BT LSP solution.
P0182	South Ambulance Programme	To procure clinical solutions for the Southern Ambulance Trusts which do not currently have these solutions under the BT LSP solution.
P0181	South Acute Programme	To procure clinical solutions for the Southern Acute Trusts which do not currently have these solutions under the BT LSP solution.
P0047	BT LSP - South	Ensuring patients detailed clinical information is available at the point of care.
P002	BT LSP - London	Ensuring patients detailed clinical information is available at the point of care.
P0031/00	CSC LSP	LSP Delivery Programme: Increased patient safety and quality of healthcare and also greater clinical effectiveness and administration efficiency.
P0294	National Tariff System (NTS)	The NTS programme will provide a national system to support the NHS in implementing the national payment system for secondary health care services, as defined by NHS England and Monitor. This national system will initially focus on the Payment by Results tariff in a hospital care setting, but will also meet other national tariff policy requirements as they are defined.
P0291	care.data	The care.data programme will ensure that there is more rounded information available to citizens, patients, clinicians, researchers and the people that plan health and care services. The aim is to ensure that the best possible evidence is available to improve the quality of care for all. There are two broad delivery elements: (1) Data flows from local systems (from hospitals, GPs, community, mental health and social care) and associated information services and linkage of this data; (2) Strategic capability platform (an uplift in HSCIC infrastructure) and associated operating model.
P0265	Data Services for Commissioners	The Data Service for Commissioners (DSfC) Programme will establish the infrastructure, systems, and services for the HSCIC to deliver the requests of commissioners and enable a legal and effective delivery of data provision.
P0281/03	GPES	The General Practice Extraction Service (GPES) was conceived to address limitations of the various current extraction tools and approaches, and provide a generic platform for all practices which can be used to support multiple, potentially complex and diverse requirements in both the short and long term.
P0042	SUS	The Secondary Uses Service supports Payment by Results policy in the hospital care setting. SUS is also the single source of comprehensive data on hospital care to enable a range of reporting and analysis. SUS will be replaced by NTS and care.data.
P0320	IDCR	The IDCR Programme aims to increase the overall level of clinical digital maturity amongst provider organisations in England. HSCIC are supporting NHS England by administering the Integrated Digital Care Fund and Nursing Technology Funds and supporting those organisations awarded funding.
P0301/00	Female Genital Mutilation Prevention – Data and Systems Business Case Development	The work package will deliver an assessment of the feasibility of achieving the following objectives: <ul style="list-style-type: none"> <li>- How can the NHS support the multi-agency objective of protecting and caring for those currently affected by, or at imminent risk of, FGM;</li> <li>- How can the NHS support the long term health education and health promotion components of a multi-agency strategy on the eradication of FGM</li> </ul>
P0055/00	Maternity & Children's Datasets	To collect and report on data for maternity, child health and adolescent mental health services.
P0024/00	N3	N3 is the National Network for the NHS. It provides reliable, supporting IT infrastructure, world class Internet Protocol (IP) networking services and sufficient, secure connectivity and broadband capacity to meet current and future NHS IT needs.
P0329/00	NHS eProcurement Solution	An eProcurement Programme to deliver the National NHS eProcurement Infrastructure for the Department of Health's NHS eProcurement Strategy. The Department of Health will provide the required funding. This is expected to be transferred via the GIA (Grant in Aid) budget.
P0238/00	NHS e-Referral Service Programme	The NHS e-Referral Service Programme will deliver an open, modern, electronic referral service, improving patient outcomes and delivering paperless referrals by 2015.
P0033/00	Picture Archiving & Communications System	Development and deployment of the PACS (Picture Archiving And Communication System). Overarching programme to manage the PACS sub-programmes.
P0321/00	Strategic Capability Platform (SCP) P1	A public commitment has been made to extract primary care data from GP Systems in early 2014 and to link and disseminate that data in anonymised form from July 2014. This, along with other short term commitments associated with programmes, including care.data, results in a requirement for a new Interim Platform to meet the requirements of NHS England as Lead Commissioner ahead of any significant investment in the Strategic Capability Platform. The Strategic Capability is planned to be the platform that enables the HSCIC to carry out its statutory requirements for the processing and dissemination of data in a safe and secure environment.
P0335/00	SUS Transition	Responsible for the delivery of interim tactical solutions to ensure business continuity from the end of the BT SUS contract. This will include system data and user transition.
