Purpose

This paper describes HSCIC Official Statistics publications planned for April to June 2015, media coverage for press released Official Statistics publications and web activity for publications released in January 2015.

Background to HSCIC Official Statistics

At 1 October 2014, the HSCIC is responsible for 88 active (currently published or planned for future release) series of Official Statistics of which 30 are designated as National Statistics, which means that the UK Statistics Authority (UKSA) recognises them as being compliant with the Code of Practice for Official Statistics.

Official Statistics are expected to evolve and improve over time, to meet the changing needs of our users, to improve their quality and utility and to respond to changes in the administrative and management data sources.

“Experimental statistics” are new Official Statistics that are under-going evaluation. A key part of this evaluation is user engagement whereby the HSCIC invites readers to comment on the publications, which helps to inform future releases.

Most HSCIC Official Statistics are published annually or more frequently. Generally, each edition is similar in content to previous versions but any substantial changes are noted below (note: no such changes are yet planned).

National Statistics are identified below with [NS]

Forthcoming Publications

Official and National Statistics

Dates for forthcoming publications are confirmed approximately six to eight weeks ahead of publication; until this point, the HSCIC announces only the planned month of publication. Because of regulations applicable during the pre-election period, dates for May’s publications have also been confirmed.

April 2015

New releases

14 April 2015 Compendium of Maternity Statistics - England, April 2015

Annual

08 April 2015 Prescription Cost Analysis, England - 2014 [NS]

- National Head and Neck Cancer Audit

User and Media Activity

January 2015 Publications

Unique page views are the number of times the publication page was viewed during the two-week period following its release. Note that one user could generate more than one unique visit.

Media Units are the total articles or other media coverage for example print, online articles or broadcasts for the publication. The totals in the table include all media units to 11 March 2015.

Bars in the table below indicate the scale of interest generated by each publication.

Publication	Date	Unique page views	Media units
NHS Safety Thermometer Report England December 2013 - December 2014	07/01/2015	320	
Provisional Monthly Patient Reported Outcome Measures (PROMs) in England April 2013 to March 2014 - January 2015. Release	08/01/2015	186
