Purpose

This paper describes HSCIC Official Statistics publications planned for December 2013 and January 2014, media coverage for press released Official Statistics publications and web activity for publications released in September and October 2013.

Background to HSCIC Official Statistics

At 31 October, the HSCIC is responsible for the 110 series of Official Statistics of which 38 are designated as National Statistics, which mean that the UK Statistics Authority (UKSA) recognises them as being compliant with the Code of Practice of Official Statistics.

“Experimental statistics” are new Official Statistics that are under-going evaluation. A key part of this evaluation is user engagement whereby the HSCIC invites readers to comment on the publications, which helps to inform future releases.

Official Statistics are expected to evolve and improve over time, to meet the changing needs of our users, to improve their quality and utility and to respond to changes in the administrative and management data sources.

Most HSCIC Official Statistics are published annually or more frequently. Generally, each edition is similar in content to previous versions but any substantial changes are noted below.

National Statistics are identified below with [NS]

Forthcoming Publications Official and National Statistics

December 2013

New releases

03 December 2013 Focus on Accident and Emergency, December 2013

13 December 2013 Learning Disabilities Census Report - England
