<b><u>Title:</u></b> care.data Plan on a Page
<b><u>Author:</u></b> David Farrell / Trina Elkington
<b><u>Programme Board Sponsor:</u></b> Eve Roodhouse, Programme Director
<b><u>Purpose:</u></b> To provide an overview for the programme board of current planned activity for the programme for the next 9 month period (a plan on a page).
<b><u>Background:</u></b> The Patients and Information (P&I) Directorate of NHS England is supporting the NHS in designing and operating a world-class patient service. The care.data programme will collect and publish detailed clinical data linked across multiple care settings, to include hospital, primary care, community, mental health and social care.  The overall programme plan is still being fully formed in light of recent governance changes and strategic decisions (e.g. public awareness extension) and this Plan on a Page provides a snapshot view of the activity for the programme including key milestones for the upcoming (next 9 month) period.
<b><u>Key Points:</u></b> The document provides an overview (picture) of planned activity for the care.data programme.
<b><u>Desired outcome(s):</u></b> For information for the programme board to enable them to see a picture of delivery including key milestones and activity.
<b><u>Circulation:</u></b> Programme board attendees (and have been seen by wider programme team as part of development and within-programme ongoing communications).
